Dear Commissioner;

Re: MM Docket No. 95-31

I am writing to request that you limit the number of applications for the NCE FM licenses to not more than ten (10) by one party. This will avoid the perception that big money and deep pockets can control the media. There are any number of smaller and less well funded organizations that would like to obtain a license and do not have the funding of the larger organizations. Let's level the playing field and allow everyone to participate.

Thanks and regards,

John W. Allen
